

Kure Med Spa, LLC

PATIENT INFORMED CONSENT FORM FOR TRUSCULPT PROCEDURE

I hereby authorize Kure Med Spa, LLC Staff to treat me with the truSculpt device. I understand that this procedure works by using radio frequency (RF) energy to provide uniform deep tissue heating for the purpose of elevating tissue temperature of selective medical conditions. There is little or no downtime associated with this treatment. It is possible the result will be minimal or not help at all.

The procedure may result in the following adverse experiences or risks:

- DISCOMFORT AND PAIN - Moderate discomfort or pain during treatment is expected. Mild discomfort or slight tenderness in the treatment area may persist for a few hours following treatment, extending rarely 24 to 72 hours.
- REDNESS/SWELLING/BRUISING - Short term redness (erythema) is expected following treatment and typically persists for several hours. In addition, swelling (edema) and/or bruising of the treated area may occur and typically resolves within 24 hours.
- WOUNDS - Treatment can result in burning, blistering, crusting, scabbing or or bleeding of the treated areas. If any of these occur, please call our office. 901-840-3871. AFTER HOURS 901-606-4944.
- INFECTION - Infection is a possibility whenever the skin surface is disrupted, although proper wound care should prevent this. If signs of infection develop, such as pain, heat, or surrounding redness, please call our office. 901-840-3871. AFTER HOURS 901-606-4944. It is IMPORTANT that you follow all post-treatment instructions provided by your healthcare staff.
- SCARRING - Scarring is a rare occurrence, but it is a possibility if the skin's surface is disrupted. To minimize the chance of scarring, it is IMPORTANT that you follow all post-treatment instructions provided by your healthcare staff.
- SKIN COLOR CHANGES - If the skin surface is disrupted, there is a possibility that the area may become either lighter (hypopigmentation) or darker (hyperpigmentation) in color compared to the surrounding skin. This is usually temporary, but, on a rare occasion, it may be permanent.
- NUMBNESS - Temporary numbness may occur, but is rare.
- LUMPS - Firm edemic areas may infrequently develop in the treated area 24 to 72 hours following treatment and typically resolve without intervention over several weeks.

I acknowledge the following points have been discussed with me:

- Potential benefits of the proposed procedure, including the possibility that the procedure may not work for me
- Alternate treatments such as surgery
- Reasonable anticipated health consequences if the procedure is not performed
- Possible complications/risks involved with the proposed procedure and subsequent healing period

For women of childbearing age: By signing below I confirm that I am not pregnant and do not intend to become pregnant during the course of treatment. Furthermore, I agree to keep Kure Med Spa staff informed should I become pregnant during the course of treatment.

Photographic documentation will be taken. I hereby do ____ do not ____ authorize the use of my photographs for teaching and/or advertising purposes.

ACKNOWLEDGEMENT

BY MY SIGNATURE BELOW, I ACKNOWLEDGE THAT I HAVE READ AND FULLY UNDERSTAND THE CONTENTS OF THIS INFORMED CONSENT FOR THE PROCEDURE AND THAT I HAVE HAD ALL MY QUESTIONS ANSWERED TO MY SATISFACTION BY MY HEALTHCARE TEAM.
